GORDO

THE PERFECTION OF NATURE
IN THE BATHROOM

The **GORDO** bowl washbasin, inspired by the elegance of nature, creates a minimalist essence in the bathroom with its round contours and simple form. This design, free from unnecessary sharp details, achieves a perfect balance between functionality and simplicity. Its round shape brings the organic structure and fluidity of nature into your bathroom.

FLUID ECONOMICAL FORM

Gordo's specially designed form maximizes water flow while being resistant to stubborn stains and easy to clean. This feature not only promotes water conservation but also provides a practical and effortless bathroom experience.

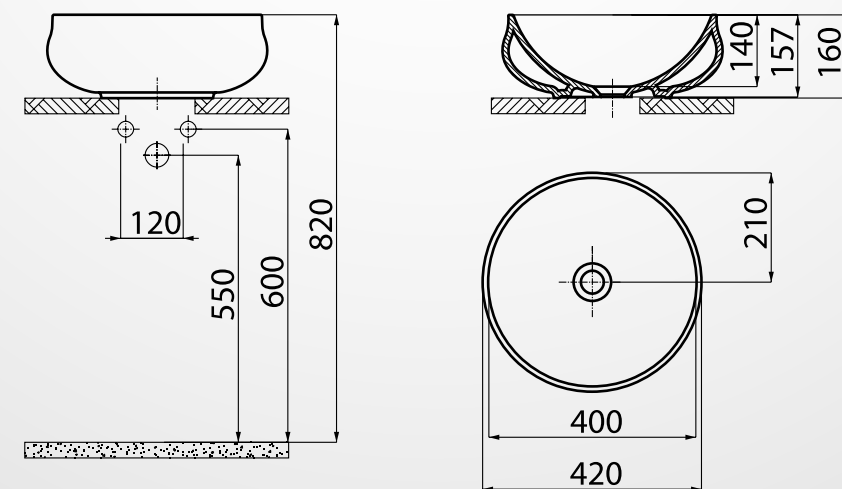

GORDO THROUGH THE DESIGNER'S EYES

|| I wanted to design a sink with minimalist, round contours, but while waiting for the perfect inspiration, sunlight flooding into my office gave me a new perspective. I realized I could reflect the round reflections forming on my window in my sink design. Drawing inspiration from these natural beauties, I achieved a unique design that combines the aesthetic power of minimalist nature with round, organic forms.
