

INNOVATION IN THE BATHROOM

LEVEL

UP!

Furniture that Determines Your Comfort Level

Level which introduces innovation to the bathroom, redefines the smart bathroom experience with its innovative design and user-focused features. Notably, the **Level** is the first in Turkey to offer a height-adjustable sink module, along with other functional features. It combines aesthetics with ease of use, elevating bathroom comfort to the highest level.

For shorter individuals, children, or the elderly, the need for additional steps is eliminated, reducing the risk of home accidents. For tall individuals, excessive bending is no longer necessary, and Level's ergonomic design supports orthopedic health.

LEVEL

First in Türkiye Adjustable Height in Bathroom Furniture

Level, the sink height can be adjusted to the most suitable position for your height with just a single button. The desired level can be set between 60 cm and 85 cm, allowing the sink to be used at the most comfortable height for the individual.

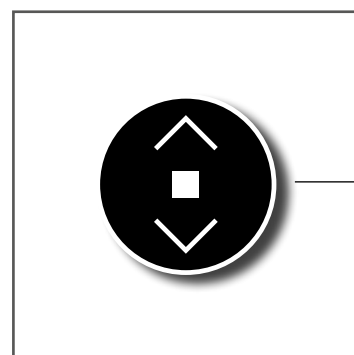

Ergonomics is undoubtedly closely related to work and professional life. However, limiting ergonomics to just work settings is one of the biggest mistakes that can be made. Ergonomics is a field concerned with making life and the world suitable for people. **The negative effects of ergonomic inadequacies in daily life are as important as those in professional settings.** The groups most affected by these inadequacies are children, women, pregnant individuals, and the elderly. Therefore, it is essential to consider dimensional changes in all designs from this perspective.

Two Color, Two Style

This furniture, designed to enrich modern bathrooms, comes in two stunning color options: **Palazzo and White**. Offered with a sleek surface option, it perfectly complements both classic and contemporary decoration styles. The natural look of Palazzo and the sophisticated simplicity of White will add a unique character to your bathroom. Minimalist in its simplicity, Level is designed to appeal to all tastes.
